

# SUPPORT EDUCATORS WALKING OFF FOR EQUAL PAY ON MAR 27

If 90% of our brains are formed in the first four years, why are early childhood educators paid only half the average national wage?

Over the last five years we have doorknocked, rallied, spoken to the community and lobbied politicians but we are still waiting for fair pay.

On March 27, many of us are taking part in the biggest walk-off in our sector's history!

Please support us by attending our Big Steps rally in your state and, if you're a parent, registering your support on [bigwalkoff.com.au](http://bigwalkoff.com.au)
